

Jane

I finally got it, you gotta get it together
Or once you get it, you gotta give it away
We gave it everything, we got a lot to discover
We grew the hard way, but I still love you today

Chorus:

Jane, all love is for ever
Yield to pain, and it's gone
Change, God knows, comes and goes like the weather
But love lives on

Both going for it, but going down separate roads
Both of us knowing, acting like we didn't know
We still pretended the easy way out is surrender
But in the end, the hardest thing is letting go

Chorus
